In conclusion may I make a plea that the evidence of reliable witnesses be sought as early as possible. Men still alive who spent all or most of their lives at one or other of the various departments of the Lilleshall Co. - Snedshill Forge; Snedshill Brickworks; New Yard, Priorslee Furnaces, or some of the closed pits. I think that a brief request to old men who would be willing to be interviewed should be published now and again over the next 12 months in the "Telford Journal".
